Amy Carrillo

Zoom Piano Teacher

About Me

My hubby and I enjoy our life with 5 cats in the Yucatan Peninsula of Mexico. Musical instruments including piano, guitar and clarinet have brought so much color to my world for many years and taken on various expressions anywhere from leading worship to collaborative songwriting. Photography is my side hustle and home design and basketball are my hobbies. My number One passion is Jesus! I love seeing people come alive as they learn their intrinsic value and discover what they are capable of creating out of that.

Education

Erie County Homeschool Diploma 2011

I'm proud to say I homeschooled the entirety of my K-12th grade education.

Allison Park Leadership Academy 2012

Bethel School of Supernatural Ministry

I graduated First Year with a focus in Life Coaching, Second Year with International Transformations/Missions and interned in Third Year for Ben Fitzgerald in 2015.

Class Overview

I am offering one-on-one online piano lessons to children, teens and adults using ZOOM Meetings. During the lesson, you will see two videos simultaneously - a video of myself at the top of the screen and a video of my hands on the keyboard at the bottom of the screen.

IMPORTANT: I am teaching piano through chord theory. This is very different from classical education. Through chords and arpeggios, you can very quickly learn to play in the worship, pop, jazz, country (plus) genres, as well as improvise.

Students only need access to a keyboard or piano, internet connection and a device with the Zoom application (preferably a tablet or laptop).

Cost

$25/Half Hour $40/Full Hour

Payments through Cash App Only

Preference will be given to students interested in meeting on a weekly basis and only a limited number of students will be accepted.
